Project Backlog

As a site user, I want to view a real-time map, so that I can have an overview of what's happening on the globe.

As a site user, I want to zoom in on the map, so that I can see the details about a specific area.

As a site user, I want to be able to understand the gravity of a disease currently existing on the globe.

Definition of Done:
- Reviewed code
- Unit tested
- Functionally tested
